## Exotic Wood Decking

### Selection Guide

IPE

THERMO ASH

GARAPA

MACARANDUBA

CUMARU

## Unparalleled Beauty. Unmatched Durability.

### “The IPE Guys” - Famous Muskoka Luxury Decking

Premium Grade, Sustainably Sourced

1 x 6 (21mm x 145mm)

Lengths: 6' to 22' (12' to 16' Average)

Ipe is the gold standard in hardwood decking. With its rich, deep brown tones, exceptional hardness, and 50+ year lifespan, it outperforms composite and pressure-treated alternatives. Naturally resistant to rot, insects, and weathering, Ipe provides a stunning, low-maintenance outdoor space that lasts for decades.

#### Looking for premium alternatives? We also offer:

**Cumaru** – Similar strength to Ipe with a warm reddish-brown hue.

**Thermo Ash** – Thermally modified for extreme stability and modern elegance.

**Garapa** – Lighter golden color with excellent durability and affordability.

**Macaranduba** – Deep red-brown with a sleek, high-density surface.

Each species is carefully sourced to ensure the highest quality, sustainability, and performance.

#### WHY CHOOSE OUR EXOTIC WOOD?

- ✓ Naturally Durable – No chemical treatments required.
- ✓ Sustainable Sourcing – Responsibly harvested for minimal environmental impact.
- ✓ Luxury Aesthetic – Timeless beauty with superior strength.
- ✓ Low Maintenance – Resistant to rot, decay, and pests.
